In the Counselor dashboards we also need different panel of the levels like separate for level 1 separate for level 2 .

2 Detailed view of the past campaigns , by the counsellors , like how many students or which level details of the student with the search bar

3 The counselors are sitting from the long time in this dashboard , lets give them an interactive dashboard from which they can engage with there platforms , like some animations , interactive elements and buttons

4

add some security indicators , like log monitoring or any thing like this .
